KEY FINDINGS

- West region leads with \$108K profit (14.9% margin)
- Central region underperforming — only 7.9% margin
- Furniture category barely profitable at 2.49% margin
- Tables losing -\$17,725 despite \$206K in revenue
- Discounts above 20% always result in losses
- November consistently highest revenue month
- Texas losing -\$25,729 — biggest problem state

RECOMMENDATIONS

1. STOP heavy discounting on Tables immediately, reduce from 26% to maximum 10%
2. REVIEW Central region strategy, Texas and Illinois losing \$38K combined
3. PUSH Technology products more, highest margin at 17.4%
4. REWARD zero-discount customers, Hunter Lopez and Sanjit Chand buy without discounts and are highly profitable
5. PREPARE for November peak season, stock up inventory by October

EXECUTIVE SUMMARY

Analysis of 9,994 orders across 4 years shows overall revenue of \$2.3M with a 12.47% profit margin below the 20% retail industry average.

The business is growing year over year but profitability is being destroyed by aggressive discounting, particularly on Furniture products in the Central region.

Implementing the recommendations could improve profit margin from 12.47% to over 17% adding an estimated \$104K in additional profit.
